2018 Parenting Sessions (Plano)

Triple P- Parent Education Class

Triple P Parenting Program is an international program that has been endorsed by the Centers for Disease Control and Prevention and found to decrease substantiated child maltreatment, child out-of-home placements and child maltreatment injuries in a randomized control study. The program seeks to create a stable, supportive and harmonious family, encourage positive child behaviors, deal positively, consistently and decisively with problem behavior, build positive relationships between parents and children, so that conflict can be resolved and there is a promotion of self-care of the parent. The seminar is held every Thursday for eight consecutive weeks.
